RE: Transportation Improvement Program Citizens Advisory Panel (TIP-CAP)

Mason County is seeking citizen volunteers to serve on the Transportation Improvement Program Citizens Advisory Panel (TIP-CAP). TIP-CAP will review and analyze Mason County's transportation needs and present their proposed transportation improvement plan to the Board of Mason County Commissioners. The time commitment would include a three-year membership period and attendance to one evening meeting every month, each lasting approximately two hours.

The Board of Mason County Commissioners will use the transportation improvement plan developed by TIP-CAP to plan road construction and other transportation projects for the next six years.

Mason County invites all interested citizens to apply for a position within one of the three Commissioner Districts. The intent is to form a team that represents a wide cross-section of Mason County's population.

Interested persons may apply by obtaining a paper application from the Mason County Commissioner's Office at 411 North 5th Street in Shelton or by calling (360) 427-9670 ext. 419 at <https://masoncountywa.gov/forms/advisory/Advisoryboardapp.pdf>. Applications will be accepted until all vacancies are filled.
