RE: Weaver Creek Bridge Replacement Project Update

The Mason County Board of Commissioner and Public Works Department would like to announce that the new Weaver Creek Bridge on Skokomish Valley Road is now open for public use. Final work required to complete the project is weather dependant and will be completed as soon as conditions allow.

It is anticipated that the remaining work could take up to 2 weeks to complete. This work includes deck membrane installation, roadway paving, miscellaneous earthwork, guardrail installation, and site cleanup. During the final work traffic will need to use the detour route and require temporary signal use.

The speed limit through the project site will remain 20mph until all construction activities have been completed.

If you have any questions about this project, please contact Public Works at (360) 427-9670, Ext. 450.
