The franchise and rights herein granted shall take effect and be in force 30 days from and after the final passage hereof and upon filing of acceptance by the Company and shall continue in force and effect for a term of 15 years after the effective date of this franchise. Section 5. CONDITIONS OF STREET OCCUPANCY.

(a) All transmission and distribution structures, lines, and equipment erected by the Company within the franchise area shall be so located as to cause no interference with the proper use of streets, and other public ways and places, and to cause no interference with the rights and reasonable convenience of property owners who join any of the said street or other public ways and places. The CATV system shall be constructed and operated in compliance with all County, State and National construction and electrical codes and shall be kept current with new codes. The Company

shall install and maintain its wires, cables, fixtures and other equipment in such manner that they will not interfere with any installations of the County or of a public utility serving the County. In all areas of the County where any cables, wires, or other like facilities of public utilities are required to be or placed underground, the Company shall place its cables, wires, or other like facilities underground in conformance with permits issued by the County Engineer to the maximum extent existing technology reasonably permits.

(b) The Company shall furnish to and file with the County Engineer maps, plats, and permanent records of the location and character of all facilities constructed, including underground facilities. Such maps, plats, and permanent records furnished and filed with the County shall be updated on April 1 and October 1 by the Company.

(c) In case of disturbance of any street, public way, or paved way, or paved area, the Company shall immediately, at its own cost and expense, and in accordance with County standards and specifications, replace and restore such street, public way, or paved area in as good a condition or better as before the work involving such disturbance was done.

(d) If at any time during the period of franchise the County shall lawfully elect to alter or change the grade of any street, sidewalk, alley, or other public way, the Company upon notice by the County shall remove, relay, and relocate its poles, wires, cables, underground conduits, manholes, and other fixtures at its own expense and in compliance with County standards and specifications.

(e) The Company shall, on the request of any person holding a building moving permit issued by the County, temporarily move, raise, or lower its wires to permit the moving of buildings. The expense of such temporary removal or raising or lowering of wires shall be paid by the person requesting the same, and the Company shall have the authority to require such payment, in advance. The Company shall be given not less than forty-eight (48) hours advance notice to arrange for such temporary wire changes and should meet current height restriction requirements.

(f) With County approval, the Company shall have the authority to trim trees upon and overhanging streets and public ways and places of the franchise area so as to prevent the branches of such trees from coming in contact with the wires and cables of the Company and shall be responsible for debris removal from such activities, except that, at the option of the County, such trimming may be done by it or under its supervision and direction at the expense and liability of the Company.

(g) The Company shall, at its expense, protect, support, temporarily disconnect, relocate in the same street or other public place, or remove from the street or other public place, any property of the Company when required by the County by reason of traffic conditions, public safety, street vacation, freeway and street construction, change or establishment of street grade, installation of sewers, drains, water pipes, power lines, signal lines, and tracks or any other type of structures or improvements by public agencies; provided, however, that the Company shall in all such cases have the rights and obligations of abandonment of property of the Company, subject to County ordinance.

(h) The County shall have the right to make additional use, for any public or municipal purpose, of any poles or conduits controlled or maintained exclusively by or for the Company in any street, provided such use by the County does not interfere with the use by the Company. The County shall indemnify and hold harmless the Company against and from any and all claims, demands, causes of actions, actions, suits, proceedings, damages, costs or liabilities of every kind and nature whatsoever arising out of such use of Company's poles or conduits.

(i) In the maintenance and operating of its transmission and distribution system in the streets, alleys and other public places, and the course of any new construction or addition to its facilities, the Company shall proceed so as to cause the least inconvenience to the general public; any opening or obstruction in the streets or other public places made by the Company in the course of its operations shall be guarded and protected at all times by the placement of adequate

barriers, fences, or boardings, the bounds of which, during periods of dusk and darkness, shall be clearly designated by warning lights, in accordance with the Manual of Uniform Traffic Control Devices.

Section 6. SAFETY REQUIREMENTS

(a) The Company shall, at all times, employ professional care and shall install and maintain in use commonly accepted methods and devices for preventing failures and accidents which are likely to cause damage, injuries, or nuisances to the public.

(b) All structures and all lines, equipment and connection in, over, under, and upon the streets, sidewalks, alleys, and public ways or places of the franchise area, wherever situated or located, shall at all times be kept and maintained in a safe, suitable condition, and in good order and repair.

(c) The County reserves the general right to see that the system of the Company is constructed and maintained in a safe condition and if an unsafe condition is found to exist, to order the Company to make necessary repairs and alterations forthwith, and if the Company shall fail to make the necessary repairs and alterations, the County may make them or have them made, and collect all cost and expense thereof from the Company.

Section 7. SYSTEM CONSTRUCTION

(a) The distribution system of the Company to be hereafter installed shall not be abandoned either in whole or part without the consent of the Commission. In the event of the failure of the Company to commence construction of the system within sixty days after the enactment of this resolution and the securing of the pole franchise with owners, or in the event of the failure of the Company to render community television service to the franchise area and the inhabitants thereof, as contemplated and provided for by this resolution within a period of one year from the effective date of this resolution, the Commission shall have the right, on reasonable notice to the Company, to declare this resolution and the rights and franchise granted thereunder forfeited provided; however, failure to comply with these terms by reason of circumstances beyond the reasonable control of the Company which could not be anticipated at the time of the

acceptance of its terms by the Company, shall not be sufficient grounds to declare a forfeiture.

(b) Company, whenever it shall receive a request for service from at least ten subscribers within 1320 cable feet of its trunk cable, shall extend its system to such subscribers at no cost to the subscribers for system extension other than the usual connection fees for all subscribers, provided that such extension is technically and physically feasible. The 1320 feet shall be measured in extension length of Company's cable required for service located within the public way or easement and shall not include length of necessary service drop to the subscriber's home or premises.

(c) No person, firm, or corporation in the Company's service area shall be arbitrarily refused service. However, in recognition of the capital costs involved, for unusual circumstances, such as requirement for underground cable, or more than 150 feet of distance from distribution cable to connection of service to subscribers, or a density of less than ten subscribers per 1320 feet of cable system, in order to prevent inequitable burdens on potential cable subscribers in more densely populated areas, service may be made available on the basis of cost of materials, labor, and easements.

Section 8. OPERATION STANDARDS

(a) The Company shall operate and maintain its cable television system in full compliance with the standards set forth by the Federal Communications Commission.

(b) Installations shall be maintained so as not to interfere with TV reception already in existence.

(c) 60 viewing channels shall be furnished as a minimum; educational channels are included as part of the minimum.

(d) Installation and maintenance of equipment shall be such that standard color signals shall be transmitted to any subscriber receiver.

(e) Additional viewing services shall be reviewed by the Commission upon request by the Company and the Commission shall have the right upon review to request and require additional viewing service of the Company.

Section 9. LOCAL OFFICE; COMPLAINTS

The Company shall maintain a local business office or agent which

subscribers may telephone during regular business hours without incurring added message or toll charges, so that complaints regarding cable television operations may be promptly reported to the Company. Should a subscriber have an unresolved complaint regarding cable television operations, the subscriber shall be entitled to file his complaint with the County Auditor, and thereafter to meet jointly with a representative of the Commission and a representative of the Company within thirty (30) days to fully discuss and resolve such matters. The Company shall notify each subscriber, at the time of initial subscription to the service of the Company, of the procedures for reporting and resolving such complaints.

Section 10. RATES

From time to time the Company may seek approval of the Commission for a rate increase; provided, however, that any rate increase submitted by the Company for Commission approval will become effective automatically within sixty (60) days of submission, unless the Commission after review of all relevant material in an appropriate public hearing affording due process finds the proposed increase is unreasonable. Rates approved shall remain in effect for not less than twelve (12) calendar months after the effective date. Subject to these procedures, the Company may pass along to subscribers such additional fees as may be imposed on it, including but not limited to direct taxes, copyright fees, and permit fees.

The determination of the Company's rates shall be subject to the rules and regulations of any state or federal authority which may subsequently, by due process of law, acquire jurisdiction over this type of industry or enterprise.

Section 11. PREFERENTIAL OR DISCRIMINATORY PRACTICES PROHIBITED.

The Company shall not as to rates, charges, service facilities, rules, regulations or in any other respect make or grant any preferences or advantage to any person nor subject any person to any prejudice or disadvantage, provided that nothing in this franchise shall be deemed to prohibit the establishment of a graduated scale of charges and classified rate schedules to which any customer coming within such classification would be entitled, and provided further that connection and service charges may be waived or modified during promotional campaigns of Company.

Installation and housedrop hardware shall be uniform throughout the County, except that the Company shall be free to change its hardware and installation procedure as the art progresses.

Sales tax or other taxes levied directly on a per subscription basis and collected by the Company shall be deducted from the gross annual basic subscriber revenues before computation of sums due the County, is made. The Company shall provide an annual summary report showing gross annual basic subscriber revenues received during the preceding year. Payment shall be made on or before the 16th day of January, April, July and October of each year of the sum due hereunder for the proceeding quarter. The above rental percentum may be renegotiated by either the County Or the grantee giving the other party thirty (30) days written notice requesting a meeting for such renegotiation.

Section 13. INDEMNIFICATION OF COUNTY.

(a) The Company shall indemnify, protect and save harmless the

County from and against losses and physical damages to property, and bodily injury or death to persons, including payments made under any workmen's compensation law, which may arise out of or be caused by the erection, maintenance, presence, use or removal of said attachments or poles within the County, or by any act of the Company, its agents or employees and will defend the County against any and all actions which may be brought against the County as a consequence thereof. The Company shall carry insurance to protect the County and the Company from and against all claims, demands, actions, judgments, costs, expenses, and liabilities which may arise or result, directly or indirectly from or by reason of such loss, injury or damage. The amounts of such insurance against liability due to physical damage to property shall not be less than one million dollars as to any one accident and not less than one million dollars aggregate in any single policy year; and against liability due to bodily injury or to death of persons not less than one million dollars as to any one person and not less than one million dollars as to any one accident. The Company shall also carry such insurance as it deems necessary to protect it from all claims under any workmen's compensation laws in effect that may be applicable to the Company. All insurance required by this agreement shall be and remain in full force and effect for the entire life of this agreement. Said policy or policies of insurance or a certified copy or copies thereof shall be approved by the Mason County Prosecuting Attorney and then deposited with and kept on file by the County Auditor.

(b) It is understood that the Company is an independent contractor and is not an agent of the County, and all personnel used by the Company in the performance of this franchise shall be employees of the Company and not of the County, and shall have no claim against the County for compensation or other benefits available to employees of the County.

(c) At the time this franchise becomes effective, the Company shall furnish a bond to the County in the amount of ten thousand dollars in such form and with such sureties as shall be acceptable to the County, guaranteeing the payment of all sums, which may at

any time become due from the Company to the County under the terms of this franchise (except such sums as are covered by the insurance provided in section a), and further guaranteeing the faithful performance of all the obligations of the Company under the terms of this franchise.

Section 14. PROCEDURES.

(a) Any inquiry, proceeding, investigation or other action to be taken or proposed to be taken by the County in regard to the operations of Company's cable television system, including action in regard to a change in subscription rates, shall be taken only after thirty (30) days public notice of such action or proposed action is served directly on Company; and, the Company has been given an opportunity to respond or comment in writing on the action or proposed action.

(b) The public notice required by this section shall state clearly the action or proposed action to be taken, the time provided for response and the person or persons in authority to whom such responses should be addressed, and such other procedures as may be specified by the Commission. The Company shall be a necessary party to any hearing conducted in regard to its operations.

In so removing said property the Company shall refill, at its own expense, any excavation that shall be made by it, and shall leave said streets and public ways and places in as good condition or better as that prevailing prior to the Company's removal of its property.

Section 16. APPROVAL OF TRANSFER.

The Company shall not sell or transfer its plant or system to another, other than a parent company or a wholly-owned subsidiary

of the Company, nor transfer any rights under this franchise to another without Commission approval. Provided, that no sale or transfer shall be effective until the vendee, assignee or lessee has filed in the office of the County Auditor an instrument duly executed reciting the fact of such sale, assignment or lease accepting the terms of the franchise and agreeing to perform all the conditions thereof. Such Commission approval will not be unreasonably withheld and neither this Section nor other Sections of this franchise shall preclude the mortgaging, hypothecating, or the assignment of certain rights in the system, or the pledge of stock by the Company for the purpose of financing.

Section 17. NEW DEVELOPMENTS.

It shall be the policy of the County liberally to amend this franchise upon application of the Company, when necessary to enable the Company to take advantage of any developments in the field of transmission of television and radio signals which will afford it an opportunity more effectively, efficiently or economically to serve its customers.

Such regulation shall be reasonable and not destructive to the rights herein granted and not in conflict with the laws of the State.
