FINDINGS OF FACT

1. Under consideration is a proposal to adopt interim amendments to Mason County Shoreline Master Program.
2. Mason County has identified a need to support efforts to enhance critical habitat or foster the recovery of listed endangered or threatened fish species.
3. The goals of the Growth Management Act including the preservation and enhancement of the environment in RCW 36.70A.020 (10) and the protection of the resources and ecology of the shoreline in RCW 90.58.020 (4).
4. Fish species represent a good and valuable asset for the county by providing employment and recreational opportunities.
5. There has been a marked decline in the number of certain fish species within the county which significantly reduces employment and recreational opportunities and impacts the economic well being of the county.
6. Certain fish species have been listed by the U.S. Fish and Wildlife Service or the National Marine Fisheries Service as threatened or endangered.
7. Enhancement of critical fish species habitat or fostering recovery of listed endangered or threatened species is in the public interest and benefits the economic well being of the county.

From the preceding findings, it is concluded that these interim provisions should be adopted.

Chair, Mason County Board of Commissioners
