Subject: Re: Ordinance #13-07 — Belfair Facility Plan

I may have heard but don't remember off hand. Emmett will know. I know that there was some discussion of money and how long it will take Ecology to approve the amended plan but I do not remember the time frame. Sorry, I'll try to find out for you.

Tom

Tom,

Do we have any idea when the amended plan might be complete?

Becky,

The plan the was approved but the Board did not approve the part about the Lamrid designation for the North Shore and the sewer for that area which was included in the plan. So to delete the North Shore the plan had to be amended to reflect the reduced flows and connections. We are waiting for the consultant to submit an amended plan.

Tom,

I am following up on the meeting from February 6, 2007 when the Board approved the Belfair Facility Plan.

The Plan was approved and identified as Ordinance #13-07. We need a hard copy of the document for the record.
