**17.09.001 Definitions.** For purposes of this chapter, the following definitions apply:

"Cannabis" means all parts of the plant *Cannabis*, whether growing or not; the seeds thereof; the resin extracted from any part of the plant; and every compound, manufacture, salt, derivative, mixture, or preparation of the plant, its seeds, or resin. For the purposes of this ordinance, "cannabis" does not include the mature stalks of the plant, fiber produced from the stalks, oil or cake made from the seeds of the plant, any other compound, manufacture, salt, derivative, mixture, or preparation of the mature stalks, except the resin extracted there from, fiber, oil, or cake, or the sterilized seed of the plant which is incapable of germination. The term "cannabis" includes cannabis products and useable cannabis.

"Cannabis products" means products that contain cannabis or cannabis extracts, have a measurable THC concentration greater than three-tenths of one percent, and are intended for human consumption or application, including, but not limited to, edible products, tinctures, and lotions. The term "cannabis products" does not include useable cannabis. The definition of "cannabis products" as a measurement of THC concentration only applies to the provisions of this ordinance and shall not be considered applicable to any criminal laws related to marijuana or cannabis.

"Collective Garden" means those gardens authorized under RCW 69.51A.085, which allows qualifying patients to assume responsibility for acquiring and supplying the resources required to produce and process cannabis for medical use such as, for example, a location for a collective garden; equipment, supplies, and labor necessary to plant, grow, and harvest cannabis; cannabis plants, seeds, and cuttings; and equipment, supplies, and labor necessary for proper construction, plumbing, wiring, and ventilation of a garden of cannabis plants (as limited below). Qualifying patients may create and participate in collective gardens for the purpose of producing, processing, transporting and delivering cannabis for medical use subject to the following conditions:

- 1) No more than ten (10) qualifying patients may participate in a single collective garden at any time;
- 2) A collective garden may contain no more than fifteen (15) plants per patient up to a total of forty-five (45) plants;
- 3) A collective garden may contain no more than twenty-four (24) ounces of usable cannabis per patient up to a total of seventy-two (72) ounces of usable cannabis; and
- 4) A copy of each qualifying patient's valid documentation or proof of registration with the registry established in state law (now or in the future), including a copy of the patient's proof of identity, must be available at all times on the premises of the collective garden; and

- 5) No usable cannabis from the collective garden may be delivered to anyone other than one of the qualifying patients participating in the collective garden.

"Cultivation" means the planting, growing, harvesting, drying or processing of marijuana plants or any part thereof.

"Designated care provider" means a person who:

"Indoors" means within a fully enclosed and secure structure that complies with the Washington State Building Code, as adopted by Mason County, that has a complete roof enclosure supported by connecting walls extending from the ground to the roof, and a foundation, slab, or equivalent base to which the floor is securely attached. The structure must be secure against unauthorized entry, accessible only through one or more lockable doors, and constructed of solid materials that cannot easily be broken through, such as 2" by 4" or thicker studs overlain with 3/8" or thicker plywood or equivalent materials. Plastic sheeting, regardless of gauge, or similar products do not satisfy this requirement.

"Legal parcel" means a parcel of land for which one legal title exists. Where contiguous legal parcels are under common ownership or control, such legal parcels shall be counted as a single parcel for purposes of this ordinance.

"Plant" means an organism having at least three distinguishable and distinct leaves, each leaf being at least three centimeters in diameter, and a readily observable root formation consisting of at least two separate and distinct roots, each being at least two centimeters in length. Multiple stalks emanating from the same root ball or root system shall be considered part of the same single plant.
